Lab Team Roles

Lab Team Roles are a great way to help your students stay engaged and work cooperatively during a Lab activity. I know without roles, I've seen some very interesting behavior. 😊

Included is a poster of roles, a poster for each of the 5 roles, and individual student cards.

Recommendations

I recommend Lab teams of 4 students or fewer. Sometimes there may be a need for a team of 5. In that case, you can use the participant card.

I recommend hole punching the student cards and putting yarn through them so students can wear them like a necklace.

Good Luck with Lab Teams!
